

# Recognizing 6 Safe Years

## *Safety Above All*

**Phoenix Park Gas Processors Limited (PPGPL) again completed 12 consecutive months without a lost workday case (LWC). With this achievement, we've recorded six years of this noteworthy performance.**

Safety in the workplace is not a guarantee. It takes commitment on an individual level; the kind of commitment that PPGPL has forged over three decades among its employees and contractors.

As we grow a sustainable business internationally, we do so with a focus on maintaining our culture of safety, upon which our business was built.

***Congratulations to our employees and contractors for your vigilance and exemplary performance in adhering to one of our core values – safety and environmental preservation.***
