

A hand is shown lighting a Diya (oil lamp) with a matchstick. The Diya is made of red clay and is filled with oil. The flame is bright and yellow. The background is dark, and the lighting is warm and focused on the Diya.

Sustaining our *Light*

As we illuminate the darkness
on this holy night, let us also kindle
hope, peace and positivity.

The NGC Group of Companies joins
our Hindu community in celebrating
the festival of Divali.
