

GAS PROCESSOR OF CHOICE

Celebrating 31 Years of Production: 1991-2022

This year, Phoenix Park Gas Processors Limited (PPGPL) celebrates our 31st anniversary of production. We're engaged in natural gas processing, and the aggregation, fractionation and marketing of natural gas liquids (NGLs), specifically propane, butane and natural gasoline.

In commemoration of this milestone, we recognise those who laid a solid foundation for our business, positioning us as a gas processor of choice. Today, as we expand along the value chain, breaking new ground, we remain firmly rooted in the principles of safety, sustainability, engagement and excellence.

To our current and former directors, employees, contractors and external partners – thank you for the significant role you've played in our journey.

We look forward to a bright future together!
